

PRETTY GIRLS WHO SERVE · CHAPTER RESOURCE

OBJECT STORY GRAPHICS

no Canva needed

One real object, PGWS pinks and wines, and words that look printed right on it. This guide shows your chapter how to make posts like our "Start a PGWS chapter" carousel in ChatGPT, with our real fonts, our real logo and a QR code that works.

This is its own kit. It sits beside the PGWS Flyer Kit and does not replace it.

PAGE 2

What it is, and *why it works*

Every graphic is one everyday object that stands for the message: a pennant for a campus, a corkboard for a list, a clipboard for steps, an envelope for "write to us". The image tool makes the object completely blank. Then the skill places every word with PGWS's actual font files, adds the bottle-of-myrrh badge and a working QR code. Because the AI never draws letters, nothing comes out misspelled or looking AI-made.

Set it up *once*

1. ### Download the kit
   Get **pgws-object-story-skill.zip** from the chapter resources. Don't unzip it.

2. ### Add it to ChatGPT
   In ChatGPT, open Skills (in Settings, or inside your PGWS Project if you made one for the Flyer Kit) and upload the zip. If your plan doesn't show Skills, start a Project and add the zip to its files.

3. ### Check it's there
   Start a chat and ask: "What does the PGWS Object Story skill do?" It should mention the blank object, the fonts and the QR code.

4. ### Keep your Flyer Kit too
   The Flyer Kit makes illustrated flyers. Object Story makes clean product-style posts. Use whichever fits the moment.

PAGE 3

How to *ask for a graphic*

Give it everything in one message. It will ask for anything missing.

Use the PGWS Object Story skill.
What it's for: our Sisterhood Brunch
Words: SISTERHOOD BRUNCH · Saturday, November 7 · 11 AM · Student Center Ballroom
QR goes to: prettygirlswhoserve.org/chapters/our-chapter
Size: Instagram post (or story, or both)

What happens next

1. **It suggests three objects**
   For a brunch maybe a place card on a plate, a menu card, or an invitation. You pick one.

2. **It makes the object blank**
   If any letters show up on the object, it makes a new one. You can ask for that too.

3. **It places the words**
   Our fonts, the badge, the QR and a little hand-drawn arrow, then checks nothing overlaps.

4. **You get the finished post**
   A 1080-wide PNG to post, and a bigger copy for printing.

If it says it can't open the image

Sometimes ChatGPT can't reach its own picture from code. Download the blank object it made, drop it back into the chat, and say "use this one". That's the only extra step.

The *look*

Blush	Rose	Crimson	Wine	Deep wine
#FDBEC8	#EE80A7	#9D1B2B	#640A1B	#4E0011

HEADLINE	**START A CHAPTER**
ONE WARM PHRASE	*on your campus*
DETAILS	SATURDAY · 11 AM · STUDENT CENTER
HANDWRITTEN NOTE	*start here →*

Pennant
Campus, start a chapter, recruitment.

Corkboard & index cards
A list of four: what you'll do, what to bring.

Clipboard & sticky note
Steps, how to start, a checklist.

Envelope & wax seal
Contact us, invitations, "we want you".

Open Bible & sticky note
Bible study.

Care package label
Service days and drives.

Check it *before you post*

Always

- Read every word against what you meant: names, date, time, place.
- Scan the QR code with your phone.
- Keep it to about 12 words on the object.
- Use PGWS's pinks and wines only.
- Put real event details only, the ones your board decided.

Never

- Words, logos or writing drawn by the image tool.
- A redrawn or AI-made PGWS logo or bottle of myrrh.
- People, faces or hands in the image.
- Pearls or mirrors: our symbols are rubies and the bottle of myrrh.
- Prices, prizes or "free" that Nationals didn't announce.
- "Join our chapter" before your chapter is approved to recruit.

ALWAYS ATTACH YOUR CHAPTER FLYER

Every event, gathering and announcement gets a graphic, and you attach it everywhere: the post, the GroupMe, Messages, and when you send it to Nationals.

"Who can find a virtuous woman? for her price is far above rubies." Proverbs 31:10
